

CHAG

CHAG is a multifunctional tool, which can be used as a heater, burner and soldering device. It will be provided without gas. Use a commercial lighter gas to fill the device.

Features

1. Multi-function: soldering iron, burner, heater
2. Piezoelectric ignition
3. Heat up to 1300 °C
4. Block for child protection
5. Easy to refill (butane)

Technical specifications

Size (LxWxD)	144 x 35 x 20 mm
Weight (w/o fuel)	57 g
Fuel	Butane
Hours of nonstop burning	Approx. 30 minutes at medium temperature
Temperatures	Up to 1300°C

Tool elements

1 Multifunctional detachable nozzle	Points towards the outlet of hot air
2 Exhaust vent	Provide adequate ventilation during operation
3 Safety lock	Safety lock switch to lock ignition button from unauthorized use
4 Trigger ignition button	Appropriately designed button enables quick and easy start-up device. Its design prevents from slipping a finger
5 Red adjustment lever	Main ON/OFF switch
6 Black adjustment lever	(+) to increase temperature and gas supply and (-) to decrease temperature and gas supply
7 Refill butane tank	Included one does not contain butane and must be filled before the first use

Can be offered in an assortment box, as a lose item or on a blister card. We can customize the gun with your own logo on a label.

Multifunctionality

The advantage of the tool is the small size and the multifunctionality, which cover a wide range of applications.
