

# Scotch-Brite™

## Hand Pads

Designed to offer the user a flexible and conformable abrasive solution for general purpose cleaning, blending and prep work. Scotch-Brite™ is designed to be aggressive enough to clean and finish without damaging the work piece.

The advantages of using genuine Scotch-Brite™ have been experienced by industries around the world for more than 50 years. The flexibility of a hand finishing system allows you to conform to the surface and finish areas that power tools cannot get to.

- Consistent surface finishing
- Will not rust or clog
- Washable material
- Can be used wet or dry

More aggressive ↑

↓ Less aggressive

**Scotch-Brite™ Heavy Duty Hand Pad 7440 (Tan)**

- Most durable and aggressive pad for quick stock removal
- Cuts fast to remove contaminants and oxides in the most demanding cleaning and finishing applications

**Scotch-Brite™ Blending Hand Pad 7446 (Grey)**

- Specially designed for hand blending and finishing stainless steel
- Mineral coarseness blends surface scratches on many metals, wood and synthetic surfaces

**Scotch-Brite™ General Purpose Hand Pad 7447 (Maroon)**

- The most versatile pad in the 3M range
- Clean, blend, finish, and deburr faster, easier and with better results than conventional abrasives

**Scotch-Brite™ Ultra Fine Hand Pad 7448 (Light Grey)**

- Ultra fine consistent finishes on metals, woods, plastics, composites and clear coats

**Scotch-Brite™ Cleaning Pad (White)**

- Very mild abrasive for gentle, yet thorough cleaning

### 3M™ Twist-Lok™ Hand Pad Holder

- Designed to make the use of hand pads more comfortable for the operator.
- The block features 3M™ Twist-Lok™ to secure the hand pads in place.
